Male , Maldives

EDUCATION

Bachelor (Hons) in Computer Science with Specialism in Cyber Security
Asia Pacific University
Kuala Lumpur, Malaysia
2023-2026

American Diploma (SAT)
2016-2020
Egyptian Language School
Cairo, Egypt

SKILLS

- Full Stack Developer
- Hardware & Software Troubleshooting
- Incident Management
- User Support & Remote Technical Support
- Agile / Scrum Collaboration

DEVELOPMENT TOOLS

- Git & GitHub
- GitLab CI
- Docker
- Visual Studio Code
- Postman
- Wireshark
- Microsoft Office & Teams

LANGUAGE

Arabic -- Native (C2)

English -- Fluent (C1)

German -- Intermediate (B2)

MARWAN HASSAN

PROFILE

Full Stack Developer with 3+ years of experience building secure, high-performance web applications with React, Node.js and AWS. Cyber Security graduate who builds security into every layer, from JWT auth and role-based access to AES-256 encryption. Award-winning engineer who owns features end to end, from database schema to CI/CD deployment, in Agile teams.

WORK EXPERIENCE

IT System - Adminstration (IT Manager)

Mu Store Male , Maldives — Jul 2026 – Present

- Managed Odoo administration, maintenance and development, improving workflows and resolving system issues
- Developed mobile applications and services integrated with Odoo for internal operations
- Built a BioTime proxy server to synchronize attendance data between Odoo and BioTime
- Managed network infrastructure, IT systems, hardware and software across store operations
- Improved system monitoring and maintenance while developing a centralized network and device tracking system

Full Stack Developer

Netmedias Leashares Sdn Bhd, Malaysia — May 2025 – Aug 2025

- Developed scalable web applications using React.js and Node.js in Agile environment
- Designed and implemented RESTful APIs for seamless frontend-backend communication
- Built reusable UI components improving development efficiency and consistency
- Integrated JWT authentication for secure user login and session management
- Optimized application performance, reducing load time by 35% through code and query improvements
- Collaborated with designers and backend engineers to deliver end-to-end features

IT Developer

Grow Group Healthcare Solutions, Egypt — Oct 2020 – Apr 2023

- Assisted in building and maintaining web applications using HTML, CSS, and JavaScript
- Supported backend integration and API testing using Postman
- Contributed to debugging and improving existing application features
- Participated in Agile team meetings and sprint planning sessions

CERTIFICATIONS

- APU SOC Elite MSSGard Program Certification
- Cisco Cybersecurity Operations Fundamentals
- Google IT Support Specialization
- Cisco Network Security
- Applied ChatGPT for Cybersecurity – InfoSec Institute
- IBM Generative AI: Introduction and Applications
- Certified LLM Security Professional (CLLMSP)

PROJECTS

MediGuard – Blockchain-Based Secure Medical Records System

(Best Cyber Security Innovation Award Showcase 3rd Place 🏆)

- Node.js, Express.js, Hyperledger Fabric, Docker, AES-256, JWT
- Developed REST APIs for secure medical record management.
- Implemented role-based authentication and authorization using JWT.
- Integrated AES-256 encryption to protect sensitive healthcare data.
- Built scalable backend services using Docker containers.
- Designed secure architecture supporting Admin, Hospital, and Patient services.

AWS Cloud Monitoring & Alert System

- AWS Lambda, CloudWatch, EventBridge, SNS, Python
- Developed automated monitoring solutions for cloud infrastructure.
- Integrated alerting mechanisms using email and SMS notifications.
- Improved operational visibility and reduced incident response times.

E-Commerce Web Platform

- Built full-stack e-commerce system using React, Node.js, and MongoDB
- Implemented product listing, cart system, authentication, and checkout flow
- Designed responsive UI for mobile and desktop users

Task Management System

- Developed CRUD-based task tracking application using MERN stack
- Implemented user roles, authentication, and real-time updates
- Improved workflow efficiency through intuitive UI design

Additional Projects

- *For more projects, technical implementations, and demonstrations, visit my portfolio: https://marwanhassan7.github.io/portfolio/*

SOFTWARE & OPERATIONAL SKILLSS

Networking

- TCP/IP
- DNS
- LAN/Wi-Fi Troubleshooting
- Network Diagnostics
- Routing & Switching Fundamentals

Front-End Development

- HTML5, CSS3
- JavaScript (ES6+)
- Node.js
- React (exposure)
- REST API integration

Back-End Development

- Node.js
- Express.js
- Python
- Java, C#
- Bash
- REST APIs
- PHP (familiar)

Databases

- DynamoDB
- SQL fundamentals
- database lifecycle management

DevOps & CI/CD

- Windows
- Docker
- Git & GitHub
- AWS (EC2, Lambda, S3, DynamoDB CloudWatch, Fargate, VPC)
- automated testing
- deployment pipelines
- Odoo

PROFESSIONAL DEVELOPMENT

- AWS Cloud & Security Training Programs
- Google Developer Student Club (GDSC) Technical Workshops
- Capture The Flag (CTF) Competitions
- AWS Builder Online Series
- AWS Webinar: Modernizing Your Software Release Process
